WATER TANKS
Authorized Dealer

STEEL TANKS • POLY TANKS • ACCESSORIES
water storage, septic, cistern, for fire protection and more!

STEEL TANKS

West Coast Tanks and Installation, Inc. is always available to provide you with top quality tank solutions. We are your **Authorized Pioneer Tanks Dealer!**

Pioneer Water Tanks are custom designed for durability and tailored to meet even the most challenging water storage needs. Delivered and constructed on-site, they minimize project costs and offer maximum flexibility in adapting to specific installation requirements.

Pioneer Water Tanks can be configured for high-wind locales, seismic conditions, and heavy industrial zones with additional accessories available. Made of Zincalume® steel that has been proven to withstand fire immersion and resist corrosion, ensuring the safety of your water supply in even the worst emergencies.

We offer pre-fabricated tank build kits from 5,000 – 100,000 gallons and can custom build tanks up to 700,000 gallons for fire protection, irrigation and potable water. These tanks are NFPA qualified (NFPA22 compliant for fire protection) and include an NSF-61, antimicrobial tank liner - AQUALINER® Fresh. In addition, Pioneer's V-LOCK® tank wall technology provides the strength of corrugated steel and maintains support for the liner while minimizing stress.

Visit the manufacturer's website for additional information at pioneerwatertanksamerica.com.

Tank Model	Tank Diameter	Height	Capacity Gallons	Net Useable Gallons*
XLR 04/02	11'	7' 2"	4,990	4,340

POLY TANKS

We offer a wide range of above ground polyethylene storage tanks in black, dark green, or mocha ranging in size from 200 to 15,500 gallons. These are designed for either indoor or outdoor use where wells do not meet the consumption needs of the users. All opaque water tanks are manufactured with FDA approved resin in NSF certified plants and are NSF certified.

- All materials are UV stabilized for long-term outdoor service.
- Gallon indicators molded in most tanks.
- Translucent tanks have sidewalls that allow water levels to be easily viewed in daylight.
- Manufactured from FDA-compliant resin for potable water.
- Weatherproof threaded lids with built-in anti-surge vents.
- Bolt-on fittings with stainless steel bolts.
- Molded-in tie down slots and lifting lugs.

Go to snydernet.com and polyprocessing.com for more information on polyurethane tanks including SEPTIC TANKS, WATER TANKS, and CISTERN TANKS.
